

Tech Training: Classroom Cables

Cables required to connect computing devices to monitors, TVs, and projectors are ordered and stocked by IT. However, since the need for connecting cables in classrooms is time-sensitive, the T&LC stocks cables for immediate distribution to faculty for classroom use. Video inputs in most classrooms are currently HDMI.

At this writing, these are the standard video cables we stock. Note that many come in various lengths from which the client can choose. We tend to stock 3' cables since they are easy for the faculty to carry.

In-Stock Cables (classroom only)

If a faculty member needs a cable *for classroom use* that we have in stock, create two tickets:

1. Delivery of in-stock cable to client
 - a. Client = faculty
 - b. Request Type = Classroom Tech > Accessories
 - c. No Charge
2. Replacement cable for stock
 - a. Client = TJ
 - b. Request Type = Technology Purchase > Accessories
 - c. Account Number = 147122

Non-Stock Cables (classroom and other)

If someone needs a cable that we do not stock, create a single ticket:

- Order and delivery of cable to client
 - Client = employee
 - Request Type = Technology Purchase > Accessories
 - Account Number:
 - 147122 for classroom
 - Departmental account for non-classroom
- IT orders cable
- TLC tech receives cable
- Resolve ticket
